INDUSTRY-PROVEN OZONE CLEANING & SANITIZING SYSTEMS

CONSIDERING EXTENDED PRODUCTION AND PERFORMANCE BASED SANITATION?

Conventional Cleaning & Sanitizing Schedule

WhiteWater Cleaning & Sanitizing Schedule

- ▶ **50% Less Sanitation Labor**
- ▶ **45% Less Sanitation Time**
- ▶ **5 Hours More Production**

No Chemicals. No Hot Water. Just Maximum ROI.

WhiteWater Cleaning & Sanitizing Systems from Ozone International use a patented combination of cold water and ozone to give processors a cleaning and sanitizing solution that minimizes sanitation time and labor, maximizes production, and maximizes cleaning and sanitizing performance.

WhiteWater DualStream™ Technology

- ▶ No Chemicals
- ▶ No Hot Water
- ▶ Continuous Degreasing
- ▶ Continuous Soil Removal
- ▶ Continuous Bacteria Control
- ▶ Minimize Cross Contamination

Maximize Savings & Productivity

WhiteWater replaces traditional 4-step cleaning & sanitizing methods with a highly-efficient 1- or 2-step cleaning & sanitizing solution. The nation's largest processors use WhiteWater to:

- ▶ Reduce sanitation labor by 50%
- ▶ Increase production by 5+ hours per day
- ▶ Eliminate chemicals & hot water

Maximize Quality

WhiteWater continuously cleans & sanitizes belts and other equipment during production, providing greater product quality than conventional cleaning & sanitizing methods. And WhiteWater's patented high+low pressure DualStream™ Technology insures reliable bulk soil removal, degreasing, and bacteria control, offering processors peace of mind when transitioning to Extended Production or Performance Based Sanitation.

WhiteWater has enabled processors to:

- ▶ Reduce cross-contamination by 70%
- ▶ Reduce environmental micro by 51%
- ▶ Successfully implement Extended Production & Performance Based Sanitation

WhiteWater Cleaning & Sanitizing Systems are protected by US Patents 7086407, 7087123, 7087124, 7188632, and 7275982.
