INDUSTRY-PROVEN OZONE CLEANING & SANITIZING SYSTEMS

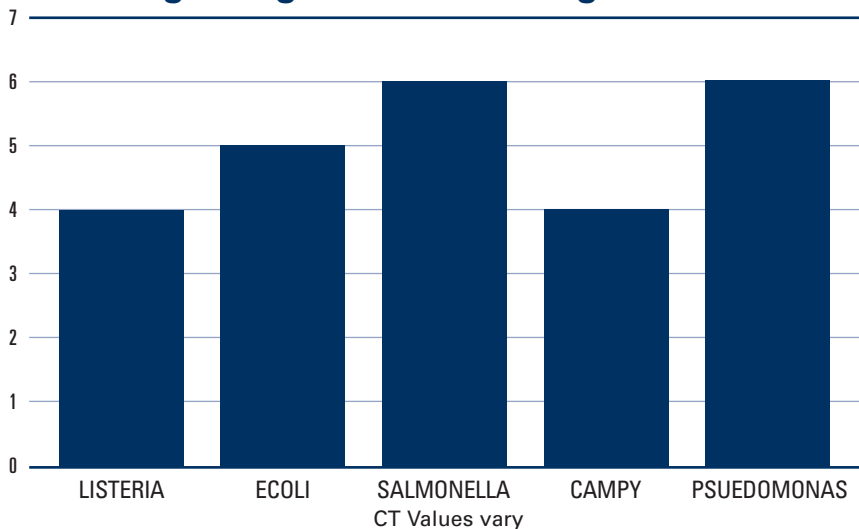

SEEKING EXTENDED SHELF LIFE & CHEMICAL-FREE SANITATION?

Shelf Life of Bell Peppers (Weeks)

- ▶ **Approved For Organic Processing**
- ▶ **Extend Product Shelf Life up to 35%**
- ▶ **Reduce Sanitation Time & Labor**
- ▶ **Reduce Pathogens**

Pathogen Log Reductions Using WhiteWater

**No Chemicals. No Hot Water.
Just Maximum ROI.**

WhiteWater Cleaning & Sanitizing Systems from Ozone International use a patented combination of cold water and ozone to give processors a cleaning and sanitizing solution that maximizes cleaning and sanitizing performance, maximizes production, and minimizes sanitation time and labor.

WhiteWater DualStream™ Technology

Hard Surface

- ▶ No Chemicals
- ▶ No Hot Water
- ▶ Reduce Sanitation Time & Labor
- ▶ Continuous Soil Removal
- ▶ Continuous Bacteria Control
- ▶ Minimize Cross Contamination

Maximize Quality

WhiteWater continuously sanitizes product during production and continuously cleans & sanitizes belts and other equipment during production, providing significantly greater product quality than conventional cleaning & sanitizing methods. And WhiteWater's patented high+low pressure DualStream™ Technology insures reliable soil removal and bacteria control during mid- and post-shift sanitation.

WhiteWater has enabled produce processors to:

- ▶ Extend shelf life up to 35%
- ▶ Reduce cross contamination
- ▶ Improve product quality

Maximize Savings & Productivity

WhiteWater replaces traditional 4-step cleaning & sanitizing methods with a highly-efficient 1- or 2-step cleaning & sanitizing solution. The nation's largest processors use WhiteWater to:

- ▶ Increase time between major cleanups by up to 28%
- ▶ Reduce sanitation labor by up to 50%
- ▶ Reduce sanitation time by up to 45%

WhiteWater Cleaning & Sanitizing Systems are protected by US Patents 7086407, 7087123, 7087124, 7188632, and 7275982.
